

Hornschuch  
**d-c-home**<sup>®</sup>

## Enjoy sweet dreams with your geometric-look bed makeover

### You will need...

- d-c-fix<sup>®</sup> Nalo adhesive film
- One d-c-fix<sup>®</sup> tool kit with smoother and cutter knife
- Scissors
- Pencil
- Measuring tape

#### Step 1

Start off by accurately measuring all sides of your bed's headboard.

#### Step 2

Then cut the d-c-fix<sup>®</sup> adhesive film to match the dimensions.

#### Step 3

Next, remove the backing paper from the piece of film for the front of the headboard and position the film along the top edge...

#### Step 4

... gradually smooth out the decorative film by running the smoother firmly over the surface of the headboard and work your way across the entire area.

#### Step 5

To finish the front, remove any protruding adhesive film along the edges using the cutter knife – to do so, hold the cutter knife at an angle to the edges to ensure a perfectly precise cut.
