

Hornschuch
d-c-home[®]

Pet DIY: this feeding bowl will make you and your pet happy!

You will need...

- One roll of d-c-fix[®] Glitter Pink
- Several rolls of d-c-fix[®] in Plain Matt
- d-c-fix[®] tool kit with doctor blade and cutting knife
- Wooden boards
- Jigsaw
- Cardboard
- Pencil
- Scissors
- Bowl
- Round wood (cut to size)

Step 1

First, make your own stencil by drawing the cat head outline on cardboard. Make sure to leave room for and draw a suitably large hole in the middle for inserting the feeding bowl.

Step 2

Cut out your cat stencil and transfer the outlines to the wooden board with the pencil.

Step 3

Now use the jigsaw to cut out the shape and glue the cut-out round wood to the bottom of the board to act as feet.

Step 4

Now it's time to get styling: cover the surface of your bowl holder with the adhesive foil in a plain color, smooth over it well with the doctor blade and cut off any excess adhesive foil on both the outside and inside using scissors.

Step 5

For the finishing touch, cut two small triangles from the Glitter Pink foil and stick these onto the plain foil as ears.
