DIY wooden measuring stick for kids

You will need...

- Several rolls of d-c-fix[®] adhesive foil
- d-c-fix[®] application kit with doctor blade and cutter knife
- A board
- Scissors
- Waterproof pin
- Measuring stick

Step 1

Lay the board on the floor with a folded-out measuring stick next to it.

Step 2

Transfer the measurement onto the wooden board. You can highlight the ten-marks with a longer dash.

Step 3

Mark out shapes, letters, or numbers onto the backing paper of the adhesive foil and then cut these out.

Step 4

Peel off part of the backing paper and press the foils down firmly with the doctor blade.
