

Hornschuch
d-c-home[®]

**Golden accents bring out the best
in every chest of drawers.**

You will need...

- One roll of d-c-fix[®] Metallic Gold
- d-c-fix[®] application kit with smoothing blade and cutter knife
- Scissors
- Pencil
- Tape measure

Step 1

Clean the chest of drawers with a cloth to remove any residues and so it can better handle the adhesive film.

Step 2

Measure the bars between the drawers which are to be bonded, then cut out the corresponding pieces of film.

Step 3

Peel off part of the backing paper of the plain decorative film and apply it along the edge of the chest of drawers.

Step 4

Peel off a little more of the backing paper and use the smoothing blade to avoid potential air bubbles. You can cut off any excess film using the cutter knife.
