

Hornschuch
d-c-home[®]

Simple sideboard with flowers

You will need...

- One roll of d-c-fix[®] Uni each in light grey, white and Ceylon yellow gloss
- d-c-fix[®] Handcrafting kit with smoothing blade and cutter knife
- Bowl
- Scissors
- Pencil

Step 1

Measure the dimensions of your sideboard, transfer the measurements onto the backing paper for the light grey adhesive film and cut the piece out. Peel off the backing paper from the piece of decorative film and apply it along the edge of the sideboards.

Step 2

Press down the film into place, stroking with the smoothing blade, and then cut off the excess film on the edges with the cutting knife.

Step 3

To make the flower petals, draw the outline of a bowl staggered four times on the backing paper for the white film. Lastly, cut out the petals.

Step 4

Remove the backing paper for one piece, put the flower in place and apply the smoothing blade until it is firmly attached. For the inside of the flower, cut out a yellow circle to size and affix it in the middle.
